EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification

At page 36, at the line just after "BODILY INCORPORATED APPENDIX B", the following paragraph has been inserted:

--Preliminary Note: The following is a bodily incorporation of the text of the full document filed as Appendix B to the present application. It should be noted when reviewing the following text that references are made to figures and citation sources which are not bodily incorporated here. For a review of those figures and citation sources, the reader is directed to the full document filed as Appendix B to this application.--

EXAMINER'S COMMENT

The preceding Examiner's Amendment has been conducted in order to avoid confusion with respect to the references to figures and citations that are discussed in the "Bodily Incorporated Appendix B" section beginning at page 36 of the specification. The patent issuing from this application will include similarly numbered figures that are referred to in the "Description of the Drawings" section beginning at page 11 of the specification. It is necessary that a distinction be emphasized to the reader of the patent that those figures discussed in the "Bodily Incorporated Appendix B" section of the specification are not to be confused with similarly numbered figures that have been referred to in the "Description of the Drawings" section.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey A. Smith whose telephone number is (571) 272-6763. The examiner can normally be reached on M-F 6:30am-6:00pm.
